

Ye Thu Aung

Junior Full-Stack Developer

ares295821@gmail.com | github.com/akk143 | linkedin.com/in/ye-thu-7b125a33a | yethuaung.dev

SUMMARY

Goal-driven developer delivering polished React frontends and Laravel/Express backends for product-led web applications. Strong at turning design into responsive UIs, integrating APIs, and building maintainable full-stack solutions.

TECHNICAL SKILLS

Frontend: React, TypeScript, Tailwind CSS, HTML, CSS, JavaScript

Backend: Laravel, PHP, Express, Node.js, REST APIs, Firebase

Database: MySQL, Firebase Realtime Database

Tools: Git, GitHub, Vite, PostCSS, Figma, VS Code, Vercel

SELECTED PROJECTS

OpenTalk Real-time Chat

- Built a real-time chat app with Firebase, Google OAuth, and room-based messaging sync.
- Delivered sub-second updates and clear state handling for active conversations.

React Landing Page

- Created a responsive landing page with modern UI patterns, fast load speed, and mobile-first layout.
- Focused on conversion-ready design, clean content hierarchy, and polished interactions.

EXPERIENCE

Freelance Web Developer

- Delivered React and Laravel projects for clients, including landing pages, dashboards, and web tools.
- Built reusable component systems, optimized page performance, and integrated API-driven workflows.

EDUCATION

Spencer Cyber Security College, Vietnam

Diploma in Software Development, 2023 - 2027

CERTIFICATIONS

- Laravel Web Development Fundamentals
- Responsive Frontend Design with React
