SUMMARY

Junior Full-Stack Developer with hands-on experience building responsive web applications using React, TypeScript, Laravel, Express.js, Firebase, and MySQL. Skilled in developing REST APIs, implementing authentication, and creating reusable UI components. Passionate about writing clean, maintainable code and continuously learning modern web technologies.

EDUCATION

ISpace Cyber Security College, Diploma in Software Development – Vietnam Mar 2025 – Mar 2027

EXPERIENCE

Full-Stack Web Developer, Freelance Nov 2025 – present

- Developed responsive web applications and landing pages using React and Laravel.
- Built reusable React components and integrated REST APIs for client projects.
- Optimized application performance and improved mobile responsiveness.
- Resolved responsive layout issues through debugging and cross-browser testing.

PROJECTS

Public Chat Room React, Express.js, Firebase

- Built a real-time chat application with Firebase Authentication and room-based messaging.
- Integrated Express.js REST APIs for backend communication.
- Implemented Firebase Realtime Database for instant message synchronization.
- Designed a responsive interface optimized for desktop and mobile devices.

React Landing Page React, Bootstrap

- Developed a responsive landing page using reusable React components.
- Implemented mobile-first layouts, smooth navigation, and interactive UI elements.
- Improved accessibility, responsiveness, and overall user experience.
