

Ye Thu Aung

Aspiring Full-Stack Web Developer

📍 Vietnam | ✉ ares295821@gmail.com | ☎ +95 9 946 438315 | 🌐 yethuaung.dev | 🐙 github.com/akk143

SUMMARY

Software Development student with hands-on experience building full-stack web applications using Laravel, PHP, React, Inertia.js, MySQL, JavaScript, and Tailwind CSS. Experienced in developing authentication systems, CRUD applications, REST APIs, and responsive user interfaces. Passionate about writing clean, maintainable code and eager to contribute to a collaborative development team.

EDUCATION

ISpace Cyber Security College, Diploma in Software Development – Vietnam Mar 2025 – Mar 2027

EXPERIENCE

Full-Stack Web Developer, Personal Projects Mar 2025 – present

- Developed full-stack web applications using Laravel, PHP, React, Inertia.js, and MySQL.
- Designed authentication systems, REST APIs, CRUD functionality, and responsive user interfaces.
- Applied Git and GitHub for version control while testing, debugging, and improving application performance.

PROJECTS

Student Management System Laravel, MySQL, Bootstrap

- Developed a full-stack student management system with secure authentication and role-based access control.
- Built CRUD modules for students, classes, educational resources, and download management.
- Implemented search, filtering, validation, and responsive admin dashboards.
- Integrated Laravel Mail with Mailtrap for email verification and notification testing.
- Utilized Laravel Eloquent ORM and MVC architecture for efficient database management.

Public Chat Room React, Express.js, Firebase

- Built a real-time chat application with Firebase Authentication and room-based messaging.
- Integrated Express.js REST APIs and Firebase Realtime Database for instant message synchronization.
- Designed responsive interfaces optimized for desktop and mobile devices.

SKILLS

Frontend: React, Typescript, Tailwind CSS, Bootstrap

Backend: PHP, Laravel, REST APIs

Database: MySQL, Firebase

Tools: Git, GitHub, Mailtrap
